

## Styrene Monomer

| Property                        | Unit | Test | Value                         |
|---------------------------------|------|------|-------------------------------|
| Molecular Formula               |      |      | C <sub>8</sub> H <sub>8</sub> |
| Mol Wt                          |      |      | 104.14                        |
| CAS#                            |      |      | [100-42-5]                    |
| Description                     |      |      | clear colorless liquid        |
| purity(%)                       |      |      | 99.5 min                      |
| Aldehydes as<br>benzaldehyde(%) |      |      | 0.02 max                      |
| peroxides as H@O@<br>in ppm     |      |      | 100 max                       |
| inhibitor in ppm                |      |      | 10_15                         |
